## Our Curriculum

The philosophy of The Creative Curriculum is that the best way to help children succeed is to teach them to be creative, confident thinkers. That means offering them opportunities for hands-on exploration and discovery that help build lifelong critical thinking skills and foster confidence. Learning isn't just repeating what someone else says; it requires active thinking and experimenting to find out how things work and to learn firsthand about the world we live in. In their early years, children explore the world around them by using all their senses (touching, tasting, listening, smelling, and looking.) The activities we plan for children, the way we organize the environment, select toys and materials, plan the daily schedule, and talk with children, are all designed to accomplish the goals of our curriculum and give your child a successful start in school.

### Our Benefits

Our educational childcare services give you the benefit of enrolling your child in a home-like environment. Our staff will bond with your child, as they are the consistent care giver for your child on a daily basis.

### Our Quality

Properly trained staff is the foundation of our quality care. Essential training ensures that our staff is equipped to provide age appropriate educational tasks and handle different scenarios when coming into contact with your child. Periodically we will send out a survey form for the parents to fill out, to ensure that our services are meeting parent and student needs.
